

KX Technology: Medical Benefits & Dental Claims

Document ID: KX-HR-2026-003

Effective Date: June 1, 2026

1. Medical Coverage

KX provides a health insurance coverage of up to 50,000 THB per calendar year.

Coverage includes outpatient (OPD) consultations, prescribed medication, diagnostic laboratory tests, and inpatient (IPD) hospitalisation at registered healthcare providers.

Emergency treatment at any licensed hospital is covered even where the provider is outside the standard KX network.

2. Dental Care Allowance

Employees can claim dental treatments (scaling, filling, braces) up to 5,000 THB per year.

Note: Dental claims are counted towards the main 50,000 THB annual medical limit.

Cosmetic dental procedures that are not medically necessary, such as teeth whitening, are excluded from coverage.

3. Eligibility and Dependents

All full-time employees are covered from their first day of employment.

Employees may register a spouse and up to two children as dependents; dependent claims draw from the same 50,000 THB annual limit unless a supplementary plan has been purchased.

4. Claims Submission

All claims must be submitted via the HR-Portal with original receipts and medical certificates within 30 days after receiving the medical treatment.

Each claim must include an itemised receipt showing the provider name, treatment date, and amount paid.

Claims submitted after the 30-day window will not be reimbursed except in documented cases of extended hospitalisation.

5. Reimbursement Timeline

Approved claims are reimbursed through payroll within 15 business days of approval.

If additional documentation is requested, the 15-day period restarts once the complete documentation has been received.

6. Exclusions

The following are not covered: elective cosmetic surgery, non-prescription supplements, and treatments received during unpaid leave.

Fraudulent or duplicated claims will result in the recovery of paid amounts and may lead to disciplinary action.
